## DEATH OF YOUNG MINER LATELY OF TONOPAH

Information was received this morning of the death of Peter Bielich at San Diego after an illness of only a month. The deceased was a brother of Mike Bielich, chef at Mooney's cafe, who left for the bedside yesterday morning taking the auto stage as far as Beatty. Peter Bielich was only 26 years of age and had been employed on the Desert Queen shaft as pipeman. He came here from Angel's Camp in 1912 and was a member of the Serbian society of that place. Interment will be at San Diego.

WHITE CAPS STRIKE  
ONE OF IMPORTANCE

The White Caps has opened what appears to be one of the richest orebodies of that property in doing some exploration work in the east orebody. A winze has been sunk to a depth of 18 feet and ore is along for the entire width of six feet with assays ranging from \$93 to \$138 in a black sulphide ore carrying nothing but gold values. It is estimated that every foot of additional depth in the winze adds \$25,000 to the value of the ore in sight. The winze was not sunk primarily to develop ore but to give the key to the position of the east orebody on the 550-foot level to which a crosscut is being run. It is probable the work will be discontinued in this winze as it is a simpler matter to raise from the 550 level than to underhand stope.

The roaster which has been under construction for the past seven months is now nearing the final

stage preliminary to actual service and it is hoped that within a few days ore will be going through to the satisfaction of the management. The adjustment of the burners is one of the most delicate operations as the heat has to be exactly at a certain temperature to secure volatilization of the rebellious elements without losing the gold values. In this process the arsenic, antimony, sulphur and zinc are vaporized. The heat is regulated by a series of pyrometers whose action is governed by the well known principles of the thermostat but a little time and close observation are required before the heat from the oil burners is gauged properly. All the bins are filled with crushed ore and everything is in readiness for the start of a campaign. Steel tanks have been substituted for the immense 100,000-gallon concrete receptacle which collapsed under pressure of a full load of oil.

PRICES OF SPUDS  
CONTINUE TO HOLD

According to W. M. Veith, of the Desert Produce company, potatoes are not begging for buyers in California, the government report to the contrary, notwithstanding. If potatoes are being offered the Red Cross or other patriotic organizations for the mere cost of gathering the produce in the field and assuming the cost of shipping, then the big distributing companies say nothing of it for their prices are held as stiffly as ever on reports that the supply of spuds is short. There is a surplus of onions but this surplus is reflected in the quotations which have dropped from \$15 a sack to normal prices. The leading produce companies which supply this market are offering Mr. Veith potatoes at \$3.10 a sack of 100 pounds. The lowest price wired this market has been \$2.95 from Los Angeles and \$3.05 from Sacramento, and there is great difficulty in getting enough to fill out a carload, according to the distributors.

ALLEGED LEPER HAD  
ONLY A SKIN DISEASE

"Toxic Dermatitis" is the scientific name of the disease that caused some persons to believe a young Chinese was infected with leprosy. This is the final and official determination of the case by Dr. Grigby who has been attending the boy for some time. The doctor says there is no similarity to leprosy as the latter carries on the skin pustules while the patient had nothing more than surface disorder. The fact that the boy passed the immigration station at Angel Island, June 28th, according to his photograph certificate showed that, if the case had been leprosy it would have been of a much plainer appearance as it would have had to be contracted in China and therefore would have been well developed on reaching the American coast.

TONOPAH MINER DIES OF  
CONSUMPTION ON COAST

A telegram to the L. O. O. M. received last evening gave first information of the death of Earl Quick, a former miner of Tonopah who left for San Francisco nearly a year ago owing to the ravages of miner's con. The Moose will have charge of the funeral arrangements. Deceased is survived by a widow and two daughters named Mrs. Charles Zuzula of Tonopah and Mrs. Robert Belcher of Round Mountain.

## AMUSEMENTS

## BUTLER THEATER

William S. Hart will appear in a somewhat different role than those he has lately portrayed, in his new picture "The Desert Man," under the supervision of Thomas H. Ince. It is a tale of the Mojave desert with Hart in the role of a grim, firm lipped man who brings prosperity to the desolate town of Broken Hope because he has faith and energy to accomplish big things. Margery Wilson is the girl who attracts the wanderer of the desert to linger in Broken Hope and causes him to make a fight for its betterment. Although she runs away with a suave doctor, the Desert Man maintains his belief in her. Then comes the night when in fierce wrath he throws himself on his horse and rides to a notorious dance hall to which little Buster, waif of his adoption, has been taken. He cleans up the place, and upon returning home finds the girl he loves. She is wearing the dress of a dance hall woman. The man, the young woman and the little boy form a trinity of happiness in the final scene. Together with this will be seen a Keystone comedy filled with excitement. Also Pathe Weekly with news of interest to you. Tomorrow: "The Broadway Sport" with Stuart Holmes. Saturday: "Betty to the Rescue." Daily matinee, 1:30; evening, 7:15 and 8:45.
